How Žan Mahnič got a mustache

…browsers and politicians shouldn’t be trusted.

1. Launched in 2016
2. Google DNI
3. Making useless data useful
4. Currently in Slovenia, Croatia and Poland

Quick demo

Will it fail?

Server Side Rendering

JavaScript runs on servers! best idea ever

Hydration

Back to our bug!

---

1. Didn’t happen in Chrome
2. Warning in dev mode
3. Different order of people
4. AHA!

UNSTABLE SORT

Lessons learned

---

1. SSR is awesome, but also black magic
2. Browsers shouldn’t be trusted
3. Use lodash

And watch out for Žan Mahnič
